

23rd St, Columbus

NH-30-5(134); C.N. 32234

Pre-Construction Public Information Open House Meeting

Thursday, February 9th, 2023; 5:00 - 7:00 PM

American Legion Hartman Post 84 | 2263 3rd Ave., Columbus, NE

IMPROVEMENTS

The proposed construction will consist of removing and replacing pavement. Curb inlets and storm sewer will be reconstructed. New pedestrian facilities will be constructed. Based on Traffic recommendations, modifications to existing turn lanes and additional turn lanes will be added where feasible. Driveways would be consolidated where possible. Roadway lighting and traffic signals will also be updated with this project. The need for MS4 mitigation requires an offsite detention & infiltration basin.

TRAFFIC IMPACTS

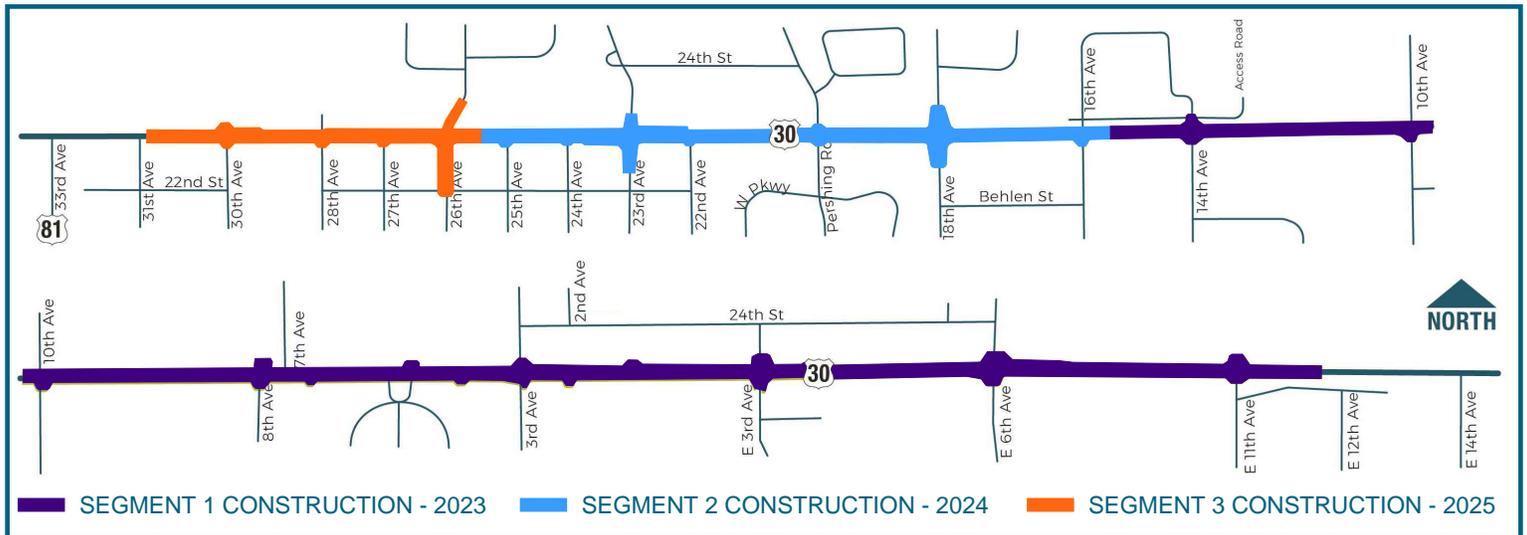

The highway project would be constructed under traffic with lane closures controlled by approved temporary traffic control strategies and devices. Access to adjacent properties would be maintained during construction but may be limited at times due to phasing requirements. Major signalized intersections will be phased with 2-way traffic maintained. Minor intersections will be closed and sequenced during the corresponding construction segments.

APPROXIMATE CONSTRUCTION COST

\$35.8M

FURTHER INFORMATION

Additional information about the project can be found at:
ndot.info/32234

CONSTRUCTION SCHEDULE *(weather permitting)*

Anticipated Start:
March 2023

Anticipated Completion:
Fall 2025

PHASING SEQUENCE SCHEDULE

Segment 1 (2023):

- Westbound lanes - Spring/Summer
- Eastbound lanes - Summer/Fall
- Center turn-lanes - Fall

Segment 2 (2024):

- Westbound lanes - Spring/Summer
- Eastbound lanes - Summer/Fall
- Center turn-lanes - Fall

Segment 3 (2025):

- Westbound lanes - Spring
- Eastbound lanes - Summer
- Center turn-lanes - Fall
